Miller's Garden

## BOOSTER POWDER

STIMULATING ALL-SEASON PLANT FOOD WITH  
ESSENTIAL AND TRACE ELEMENTS  
FOLIAGE AND ROOT DEVELOPING HORMONES

### DIRECTIONS:

Mix one rounded  
tablespoon Miller's Garden BOOSTER POWDER with 1  
gallon of water. Agitate slightly  
to keep solution uniform. More con-  
centrated Booster Solutions can be  
applied to certain plants.

*it's easy!  
it's economical!  
it's simple!*  
MAKE YOUR OWN BOOSTER SOLUTION

Flower, Vegetable Garden, or  
Lawn: Diluted Booster Solution is  
absorbed by the leaves as well as  
the roots. It may be applied directly  
to plants with a sprinkling can or  
with a Gat Sprayer.....

Use: 1 gallon per 10  
feet of row, 1 pt. to trans-  
plants, hills of corn, potatoes,  
etc.; 1 lb. per 1000 sq. ft. of lawn.

Miller's Garden BOOSTER POWDER may also  
be applied dry (2 lbs. per 100 sq. ft.) soil area in  
seed beds, greenhouse flats or new lawns by work-  
ing same into soil around the plants or by mixing it  
thoroughly with the soil before planting.

Five pounds will make 150 gallons  
of Booster Fertilizer Solution!

Produces new green  
foliage, prize win-  
ning flowers, high  
flavor vegetables  
rich in vitamins and  
all  
trace elements!

Packed: 4 oz. (24/cs); 1 lb. (24/cs);  
2 lb. (12/cs); 5 lb. (6/cs);  
25 lb. (2/cs)

Miller's Garden

## COMPOST MAKER

USED FOR MAKING ORGANIC HUMUS  
COMPOST HIGH IN PLANT FOOD MINERALS

### DIRECTIONS:

In the Compost pile, on top the ground, in a pit,  
or box, spread a layer of mixed weeds, garden refuse,  
etc. 4 to 6 in. deep, 4 ft. wide, 6 feet long. Next  
sprinkle  $\frac{1}{4}$  lb. Miller's Garden COMPOST MAKER  
(2 average handfuls) over the layer. Then cover with  
a few shovelfuls of rich top soil.

Repeat this process as you add new cuttings, weeds,  
etc., and wet down thoroughly. Leave sprinkler on  
for 2 or 3 hours covering entire pile.

### SAVE:

GRASS CUTTINGS

WEEDS

LEAVES

KITCHEN AND GARDEN REFUSE

VINES

### IN THE GARDEN,

spread grass cuttings, leaves, etc., in layers among  
the shrubs, flowers or vegetables. Then sprinkle  
Miller's Garden COMPOST MAKER liberally over  
the top.  $\frac{1}{4}$  pound will treat a layer 4 to 6 in. deep,  
2 feet wide and 12 feet long. Over the whole, sprin-  
kle a light application of top garden soil. Wet thor-  
oughly.

Miller's Garden COMPOST MAKER is a special-  
ly prepared composting material containing the es-  
sential secondary and trace elements known to affect  
plant growth: Nitrogen, Phosphorus, Potash, Boron,  
Sulphur, Manganese, Magnesium, Calcium, Iron, Zinc,  
Cobalt, and Copper.

Packed: 5 lb. (10/cs); 25 lb. (2/cs);  
50 lb. bags

Miller's Garden

## SOILDUSTO

### SOIL INSECT CONTROL DUST

## DIRECTIONS:

Mix Miller's Garden SOILDUSTO (1 lb. per 800 sq. ft. soil area or 50 lbs. per acre) into the top soil to the depth it is normally worked.

Where the crop is already planted, work into the top soil as uniformly as possible and just deep enough so as not to injure feeder roots.

Miller's Garden SOILDUSTO is formulated from DDT, Chlordane, and Lindane.

It is very effective in the control of Wireworms, Garden Symphylids, White Grubs, Strawberry Root Weevils, Maggots, Cutworms, Springtails or other insects which cause garden losses due to root injury.

SOILDUSTO may also be applied on the soil during the growing season to control migrating insects such as Root Weevil adults, Earwigs, Cutworms, Ants and Grasshoppers.

It is a very effective insecticide to use in basements, in outbuildings, on lawns, and at the base of shrubbery for control of Ants, Earwigs, Spiders, Flies, Mosquitoes and Fleas.

Packed: 4 oz. (24/cs); 10 oz. (12/cs);  
2 lb. (12/cs); 5 lb. (6/cs)

Miller's

## VEGETABLE DUST

### SPECIALLY PREPARED ROTENONE

## INSECTICIDE - FUNGICIDE

Tomatoes

Potatoes

Cucumbers—Melons

and other vegetables

Flea Beetles, Late Blight, Certain Aphids, 11 Spotted Beetle.

DIRECTIONS: DUST THOROUGHLY on first appearance of insect or injury.

For healthy foliage and fruit, dust often but lightly, at least once a week during the active growing season. For blight control, dust early, before the disease appears.

Miller's VEGETABLE DUST contains NO sulphur. It is a specially prepared organic insecticide-fungicide....effective and economical....to use as directed on tender vegetables and fruits such as.... Tomatoes, Cucumbers, Melons, Potatoes, Beans, Cabbage and other Vegetables.

Packed: 1 lb. (12/cs)

Miller's

## GARDUSTO

CONTROLS ALL COMMON GARDEN  
INSECTS AND DISEASES

### DIRECTIONS:

For healthy foliage, free of insects and diseases  
..... DUST or SPRAY

LIGHTLY  
BUT OFTEN  
(at least once a week)  
with  
Miller's GARDUSTO

Miller's GARDUSTO — New Improved formula—  
is a wettable powder which can be used as a spray  
or as a dust. It contains the highly effective insecti-  
cide — Lindane, and the new organic insecticide,  
Methoxychlor — for use on vegetables and fruits.

These insecticides  
control many varieties of  
chewing and sucking in-  
sects, such as .....  
Aphis, Thrips, Mealy Bugs,  
White Flies, Diabrotica  
Beetle, and Lepidopterous  
Caterpillars. Miller's GAR-  
DUSTO will also control  
Earwigs and many varie-  
ties of Ants and Spiders,

APHIS FLOWER THIRPS

Packed: 1 pt. (12/cs); 1 qt. (12/cs);  
1 gal. (4/cs)

Miller's Garden  
**CALOMAG**

**CALOMEL DUST – KILLS MAGGOTS**  
on Cabbage and Cauliflower

**DIRECTIONS:**

**GARDEN:** 1 teaspoon of Miller's Garden CALOMAG around base of plant when

reset. Keep base protected with a **thin** layer of CAL-MAG.

**SEEDBED:** Keep base of seedlings protected with **light** dusting of CALOMAG.

**FIELD:** When flies appear, or 4 to 5 days after transplanting, protect base of seedlings with **light** dusting – 75 to 100 lbs. per acre. Two to three applications necessary.

Keep your plants Healthy and Growing. Protect them with Miller's CALOMAG.

For abundant quick root development and sturdy plant growth, use Miller's Garden BOOSTER POWDER.

Packed: 4 oz. (24/cs); 10 oz. (24/cs);  
20 oz. (12/cs); 5 lb. (6/cs)

Miller's Garden  
**CHLOROSPRA**

**CHLORDANE EMULSION**

20 times  
natural  
size

**DIRECTIONS:**

**THRIPS:** Gladioli, Onions, Beans—2 tpsps. per qt. of water; ½ cupful to 3 gal.; 1 qt. to 25 gal. water. Apply soon as thrips appear and repeat in 2 or 3 days. Make a second and third application at 12 day intervals.

**CARROT RUST FLY:** Use 1 tsp. per qt. of water, and apply 1 qt. to 8 feet of row. Make first application when Carrot Rust Fly first appears followed by 2 or 3 repeat applications at 12 day intervals, or after rains.

**ANTS, EARWIGS, ROACHES:** 5 tbsps. per quart of water; 1 cupful to 3 gallons of water. Thoroughly spray runways and other places they frequent.

Packed: 4 oz. (24/cs); 1 pt. (12/cs);  
1 qt. (12/cs)

Miller's Garden  
**CHLORDUSTO**

**5% CHLORDANE DUST**

**DIRECTIONS:**

Dust on first appearance of the insect or injury. Repeat applications until under control.

Carrot Rust Fly—Thrips—Maggots  
Box Elder Bugs—Ants—Roaches  
Grasshoppers—Earwigs

**CARROT RUST FLY – Maggots:** Place two inch band of Miller's Garden CHLORDUSTO along row when plants are ½ inch high or when reset in garden. Make 2 or 3 repeat dust applications over plants at 10 to 12 day intervals, or after rains. **FIELD:**—Use 20 to 30 lbs. per acre.

**THRIPS:** Gladioli, Onions, Beans: Make first applications soon as thrips appear. Repeat at 4 to 7 day intervals to keep under control till blossoms form.

Packed: 10 oz. (12/cs); 2 lb. (12/cs);  
5 lb. (6/cs)

Miller's  
**5% DDT**  
**HOUSEHOLD SPRAY**

**5% DDT in HIGHLY REFINED 100%  
VOLATILE BASE OIL – NON-STAINING**

**DIRECTIONS:**

Applied as a fine mist spray, Miller's 5% DDT HOUSEHOLD SPRAY can be used safely on home furnishings without stain.

It will kill flies, fleas, clothes moths, mosquitoes, bed bugs, silverfish, carpet beetles, and book lice.

For residual effect on outdoor screens, in garages or basements wet surfaces thoroughly with coarse droplet spray.

Packed: 1 pt. (12/cs); 1 qt. (12/cs);  
1 gal. (4/cs)

Miller's

**25% DDT EMULSION**

CONCENTRATED LIQUID FORM of DDT

## DIRECTIONS:

THRIPS: Gladioli, Roses, Onions, Beans; CAT-ERPILLARS, TENT CATERPILLARS and numerous other garden insects.

2 tsps. per qt. of water; or ½ cupful per 3 gal. water or 1 qt. per 25 gal. water. Spray as the insect or injury appears. Repeat at 4 to 7 day intervals until under control.

FLIES and MOSQUITOES: Outside wall — Residual Spray — Recommend approximately 5% spray — 1 cupful to 1 quart of water or 1 quart to 1 gallon water. Use coarse droplet spray, apply till surface wet but not running.

Miller's 25% DDT EMULSION mixes readily with hard or soft waters forming a beautiful milky white stable emulsion.

Packed: 4 oz. (24/cs); 1 pt. (12/cs);  
1 qt. (12/cs); 1 gal. (4/cs)

Miller's Garden

**DORMO**MISCIBLE DORMANT OIL  
DORMANT CLEANUP SPRAY

Miller's Garden DORMO is a miscible oil used as a general dormant clean-up spray, 2½ tbsp. per qt. of water or 2/3 cupful to 1 gal., to control San Jose Scale, Lecanium Scale, Green Peach Aphid, Fruit Tree Leaf Roller, Pear Psylla, Tent Caterpillar Eggs, European Red Mite and Brown Mite Eggs.

DORMANT Application: Miller's Garden DORMO used in combination with Miller's LIQUID LIME SULPHUR with SPREADER, 1/3 cupful DORMO plus ½ cupful LIQUID LIME SULPHUR with SPREADER to 1 gal., is exceptionally effective in controlling hard-to-kill scale such as Oyster Shell, Lecanium. This DORMANT application also kills San Jose Scale, Soft Brown Blister Mites, Mealy Bugs and Woolly Aphis.

Packed: 1 pt. (12/cs); 1 qt. (12/cs);  
1 gal. (4/cs)

Miller's

**FERMOCIDE**ORGANIC FUNGICIDE—EASILY WETTABLE  
(Ferric Dimethyl Dithiocarbamate)

## DIRECTIONS:

DAMPING OFF: 1 teaspn. per 1 gal. water; 5 oz. to 100 gal. water. With fine nozzle sprinkling can, wet surface of soil just before

or as soon as seedlings appear. One gallon solution will treat 20 sq. ft. of soil area. Repeat at 4 to 7 day intervals until seedlings are well established.

PEACH LEAF CURL: 1 level tablespoon per gallon water or 1½ lbs. per 50 gal. water. Two spray applications west of Cascades: First, late November or early December; Second, early Spring, before buds swell.

Miller's FERMOCIDE is used in the control of numerous other fungous plant diseases — 1 level tablespoon per quart water; 1½ lbs. per 50 gallons water.

Packed: 4 oz. (24/cs); 10 oz. (12/cs)

Atlas

**FERTILIZER EMULSION**CONCENTRATED FISH  
COMPLETE LIQUID ORGANIC PLANT FOOD

Atlas Fertilizer Emulsion is a concentrated Fish Emulsion containing:

5.5% Nitrogen  
2.0% Phosphoric Acid  
2.0% Potash  
and certain trace elements.

It is prepared to meet the exacting demands of the organic gardener for use on flowers, vegetables, small fruits and lawns.

Used extensively by Rose, Tuberous Begonia and other flower growers.

Quick, stimulating growth.

**SEE the EXTRA  
GROWTH and VIGOR**

Packed: 1 pt. (12/cs); 1 qt. (12/cs);  
1 gal. (4/cs)

## GAT SPRAYER

FERTILIZE the EASY, ECONOMICAL WAY

### DIRECTIONS:

Fill a Mason Jar with Miller's Garden BOOSTER POWDER. Screw on the Gat Sprayer attached to hose. Turn on the water when ready to apply Booster Solution — invert Mason Jar and apply solution directly to plants, flowers, vegetables, and fruits. The foliage, as well as the roots, absorbs trace and essential plant food elements.

Miller's LAWNTONE may also be applied with a Gat Sprayer.

Packed: 6 to carton

Miller's

## INDUSTRY SPRAY

KILLS DDT RESISTANT FLIES  
HIGHLY EFFECTIVE — LASTING

### DIRECTIONS:

Surface or Residual Spray. Atomize with coarse droplet type of spray to thoroughly wet, without running, "spot" areas where insects normally rest or where they are found.

"Spot" spraying is more effective than space spraying.

Also controls: Spiders, Roaches, Fleas, Mosquitoes, Grain Weevils, Bran Bugs, Earwigs.

Do not allow spray to come in contact with food or food containers.

Miller's INDUSTRY SPRAY contains Chlordane, DDT, and the new highly effective Lindane.

Packed: 1 qt. (12/cs); 1 gal. (4/cs);  
5 gal. (1/cs)

Miller's

## HORMOIL

GENERAL WEED SPRAY

Driveways, Paths, Fences, Edge of Lawns

**MARK THESE  
OFF YOUR LIST....**

BLACKBERRY

BRUSH

GENERAL CLEANUP SPRAY. Dilute 1 gallon Miller's HORMOIL with 10 gallons water to treat 800 sq. ft. of

area. Wet all foliage and crown of bushes thoroughly.

QUACK GRASS and JOHNSON GRASS. Control in 1 season. Dilute 2 gal. Miller's HORMOIL with 10 gal. light oil (diesel or kerosene) to treat 800 sq. ft. area. Thoroughly cover all grass foliage. See label for full directions.

Miller's HORMOIL should not be used next to flowers and ornamentals as the vapor fumes may produce injury on susceptible plants.

Packed: 1 qt. (12/cs); 1 gal. (4/cs);  
5 gal. (1/cs)

Miller's

## ISOPROL

QUACK GRASS and JOHNSON GRASS  
CONTROL in ONE SEASON

### DIRECTIONS:

Apply Miller's ISOPROL direct "as is". Thoroughly cover all grass foliage approximately 1 gallon per 250 sq. ft. area. After application, wet treated area thoroughly with water—soil must be moist.

IMPORTANT: Check treated area at monthly intervals and treat the few remaining plants that may appear from time to time. When possible wet the treated after each treatment.

Miller's ISOPROL is also an effective General Weed Killer, kills both broadleaved and weedy grasses.

Packed: 1 qt. (12/cs); 1 gal. (4/cs);  
5 gal. (1/cs)

Miller's

**LAWNTONE**

HIGH QUALITY LAWN FERTILIZER

**DIRECTIONS:**

Use 1 lb. Miller's LAWNTONE to every 100 sq. ft. of lawn area. For the best results, apply this amount every 3 or 4 weeks during the growing season.

**NEW LAWNS:** Before seeding, work 6 lbs. into each 100 square feet of top soil.

Miller's LAWNTONE with a dehydrated finely ground peat moss base, is a weed-seed-free balanced lawn fertilizer, containing a lawn fungicide which controls molds, fungi, toadstools, dollar spot, mushrooms, brown spot. To control MOSS in lawns, apply Miller's LAWNTONE at weekly intervals until eliminated.

Miller's LAWNTONE is formulated so it may be applied at any time during the growing season without burning—always maintaining that beautiful, velvety dark green color you want.

Packed: 40 lb. bags.

Miller's

**LIQUID LIME SULPHUR**

29% CALCIUM POLYSULPHIDES - 32° BAUME

**DIRECTIONS:**

**DORMANT SPRAY:** 1 part to 8 parts of water. Thoroughly wet all limbs or branches. Apply only in the dormant season.

**SUMMER SPRAY:** See Miller's LIQUID LIME SULPHUR with SPREADER.

Miller's LIQUID LIME SULPHUR is used as a dormant spray to control San Jose Scale and early spring applications for Scab and Powdery Mildew on Apples and Pears: also as a dormant cleanup spray on Roses.

As a general cleanup dormant spray, use 1 part of LIQUID LIME SULPHUR to 8 parts of water; for Roses 1 part to 10 parts of water.

Suggested summer fungicidal sprays: See Miller's LIQUID LIME SULPHUR with SPREADER.

Packed: 1 qt. (12/cs); 1 gal. (4/cs);  
5 gal. (1/cs)

Miller's

**LINDANO 25 W**

25% LINDANE WETTABLE POWDER

**DIRECTIONS:**

**FLY CONTROL**—Surface or Residual spray in dairy barns, farm buildings: Use 1 lb. Miller's LINDANO 25 W to 10 gallons water, or 1½ oz. per gallon of water.

**LICE & MANGE CONTROL:** Dairy cattle, Hogs, Horses: Use 1½ lbs. to 100 gallons water or apply 2 gallons per adult animal. One application for Lice, Two applications for Mange, one week apart. Consult your local county agent regarding caution in treating calves under three months and other young animals.

**INSECT CONTROL:** Field and garden. Use 1 lb. per 100 gallons of water, or 1 oz. to 6¼ gallons water. Spray on first appearance of insect or injury.

Miller's

**MICROCOP**MICRONIZED TRI-BASIC COPPER SULPHATE  
WITH SPREADER

USE IN PLACE OF BORDEAUX SPRAYS

**FOR:**

**LATE BLIGHT** on Tomatoes, Celery and Potatoes.  
**BERCKMAN'S BLIGHT** on Arbor Vitae.  
**BOTRYTIS** on Lilies.  
**PEACH BLIGHT** on Peaches

Certain **LEAF SPOTS** on flower plants, trees, shrubs and other similar fungous diseases controlled with copper.

Miller's MICROCOP represents a so-called "fixed copper" spray, and is prepared from micronized tri-basic copper sulphates that will not deteriorate with age. It is so fine that it will not clog the nozzles of small hand operated spray rigs.

Packed: 1 lb. (12/cs); 4 lb. (6/cs)  
25 lb. drums

Packed: 4 oz. (24/cs); 1 lb. (12/cs)  
4 lb. (12/cs)

## PENETROL

### STICKER-SPREADER for BORDEAUX SPRAYS

PENETROL is a sticker and spreader for Bordeaux sprays.

General use: 1 teaspoon PENETROL to 1 quart spray solution, or 1 quart in 50 gallons of spray solution.

The efficiency of Bordeaux spray for Botrytis on Lilies has been increased by the addition of as little as 1½ pints of PENETROL per 50 gallons of spray solution.

Packed: 1 qt. (12/cs); 1 gal. (6/cs);  
5 gal. (1/cs)

## PHYGON XL

### ORGANIC FUNGICIDE

#### DIRECTIONS:

##### CALIFORNIA PEACH BLIGHT:

1½ teaspoon to 1 gallon of water or ¾ lb. per 100 gallons. Spray right after harvest.

PHYGON XL is also suggested by manufacturers to control Apple Scab, Brown Rot on Stone Fruits, Azalea Petal Blight, Tomato Blight, Celery Blight (both early and late), Cherry Leaf Spot, Downy Mildew on Beets and other similar diseases.

Packed: 2 oz. (24/cs); 4½ oz. (12/cs);  
1 lb. (12/cs); 4 lb. (12/cs)

Miller's Garden

## RODUSTO

### ORGANIC INSECTICIDE-FUNGICIDE

#### DIRECTIONS:

DUST: Light applications at least once a week.  
SPRAY: Use 2 rounded tbsps. per qt. water (1 lb. to 20 gal.). Spray on first appearance of insect and repeat at 4 to 7 day intervals until under control.

CONTROLS: Aphis, Flea Beetle, Cabbage Worm, Cabbage Looper, Spittle Bug, Pea Weevils, Mexican Bean Beetle, Flower Thrip, Powdery Mildew on peas, grapes.

Miller's Garden RODUSTO is a wettable powder having the plant organic insecticides — Rotenone and Pyrethrum, as a base. The fungicide is also of an organic formulation. For healthy foliage, free of insects and diseases, dust or spray lightly and often with Miller's Garden RODUSTO. Use up to harvest time.

Packed: 8 oz. (24/cs);  
1 lb. (12/cs);  
2 lb. (12/cs); 5 lb. (6/cs)

Miller's

## ROTEFIVE

### 5% ROTENONE WETTABLE POWDER

#### OX WARBLE (Cattle Grubs); CHERRY FRUIT FLY FRUITWORM on CRANBERRIES

#### DIRECTIONS:

OX WARBLE: Spray: 7½ lbs. ROTEFIVE in 100 gal. of water will treat about 200 cattle. Wash: 1 lb. ROTEFIVE in 5 qts. water will treat about 25 cattle; 4 oz. in 1 qt. water will treat 4 to 5 head of cattle used as a wash.

Miller's ROTEFIVE (½ oz. to 1 gal. water or 1½ lbs. per 50 gal. water, 2 to 3 repeat applications necessary) will control Cherry Fruit Fly, Yellow and Dark Currant Flies (Currant and Gooseberry Maggots); Raspberry and Loganberry Fruitworm, Aphis on Celery, Fruitworm on Cranberries.

Packed: 1 lb. (12/cs); 5 lb. (6/cs)

Miller's Garden

**ROTENOL**LIQUID ROTENONE-PYRETHRUM  
INSECTICIDE SPRAY

SAFE to USE on FLOWERS or VEGETABLES

## DIRECTIONS:

Green Aphis, Thrips — Easy to kill insects: 1 teaspoon to 1 quart water.

GLADIOLUS THRIPS, White Fly: 2 teaspoons to 1 quart of water.

MEALY BUG, RED SPIDER, SPIDER MITE: 1 teaspoon Miller's Garden ROTENOL plus 2 teaspns. Miller's Garden SUMERO to 1 quart water.

Also controls LEAFHOPPERS, TARNISHED PLANT BUGS, LEAF MINERS of Lilacs and Holly and many other insects of flower and vegetable garden.

Miller's Garden ROTENOL — a concentrated liquid insecticide — contains Rotenone, Pyrethrum and Penetrol. One teaspoon will make 1 quart of spray.

Packed: 1 oz. (36/cs); 4 oz. (24/cs);  
1 pt. (12/cs); 1 qt. (12/cs)

**SPERGON**

SEED PROTECTANT

## DIRECTIONS:

Place seed in glass jar and add small amount SPERGON — just enough to cover seed thoroughly is sufficient.

Kills destructive fungi that cause seed decay and Damping Off disease.

Use SPERGON—the effective, safe, inexpensive seed protectant.

SPERGON controls fungi on peas, beans, lima beans, sweet corn, field corn, carrots and certain other garden seeds.

Packed: 1 oz. (24/cs); 5 oz. (12/cs);  
1 lb. (12/cs); 10 lb. drum

**SPERGON - Wettable**

BULB TREATMENT

## DIRECTIONS:

Tulips—Lilies: 2½oz. SPERGON, Wettable to 1 gallon water or 4 lbs. per 25 gallons. Soak bulbs 15 minutes prior to planting.

Wettable SPERGON has been found to be consistently beneficial for the prevention of what is commonly called "Premature dormancy" on Croft Lily Bulbs.

It is also used as a spray for celery seed beds to prevent Damping Off and for Cabbage Downy Mildew.

Packed: 4 oz. (12/cs); 1 lb. (12/cs); 10 lb. drums.

Miller's Garden

**SPRADUSTO**GROW ROSES and FLOWERS FREE OF  
INSECTS and DISEASES

Miller's Garden SPRADUSTO may be used as a Spray or as a Dust. It contains Lindane, DDT, Pyrethrum, Rotenone, Sulphur and Fermocide — formulated to give the best possible control of most insects and fungus diseases that attack roses and other flowers.

Controls: Powdery Mildew and Black Spot on Roses, Rust on Snapdragons and Hollyhocks, and other similar diseases; Aphis, Rose Slugs on Roses, Thrips, Caterpillars, Spittle Bugs, Leafhoppers and many other common garden insects.

For beautiful blooms and foliage on Roses and other flowers, dust or spray lightly but often, at least once a week. Experts use SPRADUSTO.

Packed: 8 oz. (24/cs); 1 lb. (12/cs);  
2 lb. (12/cs); 5 lb. (6/cs)

Miller's

**SPRA-O-CIDE**

50% DDT WETTABLE POWDER  
MICRON SIZE with SPREADER and STICKER

**DIRECTIONS:**

Make a thin paste with small amount of water, then add balance of water.

FLIES and MOSQUITOES:  
SURFACE RESIDUAL SPRAY  
— 3 rounded tbsps. per pint of water; or 1 lb. per 2½ gal. of water makes a 2½% DDT spray.

FLOWER GARDENS—ORNAMENTALS: 1 to 2 rounded teaspoons per gallon of water;

or 1 pound per 50 gallons water.

For effective control of many insects affecting livestock, agriculture, farm and out buildings—see label for directions.

Packed: 4 oz. (24/cs); 1 lb. (12/cs);  
4 lb. (6/cs); 50 lb. bags

Miller's Garden

**SULPHUR**

WETTABLE POWDER-MICRON FINE SULPHUR

**DIRECTIONS:**

Dust: Apply direct to plants as is.

Spray: 2 tbsp. to 1 gal. of water or 3 lb. to 50 gallons of water. Spray before fungus appears when possible. Prevention is the key note in the control of fungus diseases. Repeat applications at weekly intervals until under control.

Miller's Garden SULPHUR can be used as a dust or spray to control such fungous diseases as Mildew on Roses, Rust on Carnations, Hollyhocks, Snapdragons, Brown

Rot on Peaches, Cherries, and Prunes, and Scab on Apples and Pears. It is also effective in reducing or holding in check Red Spiders on Roses.

Sulphur should not be used during periods of extreme hot weather.

Packed: 2 lb. (12/cs); 5 lb. (6/cs)

Miller's

**101 SPREADER**

STICKS SPRAY ON TREES, SHRUBS  
THROUGH ALL KINDS OF WEATHER

**DIRECTIONS:**

DORMANT SPRAY: Use 1 pint Miller's 101 SPREADER to 100 gallons of spray, or 1 tablespoon to 1 gallon.

SUMMER SPRAYS: Use 1 pt. Miller's 101 SPREADER to 200 to 300 gallons of spray, or 2 teaspoons to 1 gallon.

Miller's 101 SPREADER is an economical, effective spreader-sticker to be used with Miller's MICROCOP, Bordeaux Sprays, Nicotine Sprays and Oil Sprays.

Packed: 4 oz. (24/cs); 1 pt. (12/cs);  
1 qt. (12/cs); 1 gal. (4/cs)

Miller's Garden

**SUMERO**

MISCIBLE SUMMER OIL SPRAY

**DIRECTIONS:**

RED SPIDERS, MEALY BUGS, WHITE FLY: 6 tablespoons Miller's Garden SUMERO plus 1 tablespoon Miller's Garden ROTENOL per gallon water. Spray on first appearance of insect.

HOLLY SCALE, SOFT BROWN SCALE: Same combination spray as for Red Spiders.

1st Spray: Early as weather permits

2nd Spray: June (When temp. less than 80° F)

3rd Spray: Fall, after growth

Miller's Garden SUMERO is a free-flowing, light, miscible summer oil which mixes readily with hard or soft water.

Packed: 1 pt. (12/cs); 1 qt. (12/cs);  
1 gal. (4/cs)

## Miller's TREE WHITE

WHITE COATING PROTECTS TREES  
FENCES, BASEMENTS, POULTRY HOUSES

### DIRECTIONS:

4 to 5 lbs., mixed thoroughly with water, makes 1 gallon cold water paint which covers about 225 sq. ft. of wood surface.

Miller's TREE WHITE is ready to use and easy to apply. Sift this powdered material slowly into water and mix to consistency of thick paint. Apply with a brush in a smooth even coat. If used as a spray, it will be necessary to add more water and mix to a thinner consistency. The solution should be well mixed at all times. A thin priming coat allowed to thoroughly dry, followed by a thicker coating, gives best results.

For Shot Hole Borer use Miller's SPRA-O-CIDE (3 rounded tbsps.) per gallon of diluted Tree White mix. Paint all infested trunks and branches.

Packed: 1 lb. (12/cs); 5 lb. (6/cs)

## Miller's WEEDO

LIQUID SODIUM ARSENITE WEED KILLER

### DIRECTIONS:

Dilute Miller's WEEDO 1 part to 20 parts of water and apply with sprinkling can. Wet weeds thoroughly. Wash sprinkling can out thoroughly after use. For sterilizing the soil and for extended weed control dilute 1 part to 5 parts of water.

Kills weeds and sterilizes the soil in driveways and paths. Wet down thoroughly area to be treated.

TERMITES: Soak ground around infested areas. Soak infested wood. If possible, locate source of water supply of Termites and add very small amount of WEEDO to the water.

Caution: WEEDO is poisonous

Packed: 1 qt. (12/cs); 1 gal. (4/cs)

## Miller's VITATONE

ALPHA NAPHTHALENEACETIC ACID  
WETTABLE POWDER

### DIRECTIONS:

For HOLLY DIPPING:  
Use 12 ounces to 1½ pounds  
VITATONE per 100 gallons  
water.

For Apples: 4 oz. VITATONE  
per 100 gallons water. 48 oz.  
treats 1 acre.

For Pears: 4 oz. VITATONE per 100  
gallons water. 24 oz. treats 1 acre.

Safe — Economical — Efficient

Hormone spray powder for keeping apples and pears on trees, dipping holly. VITATONE contains spreader and sticker. Just add water — immediately and easily soluble.

Packed: 4 oz. (24/cs); 1 lb. (12/cs);  
5 lb. (6/cs); 50 lb. bags
